

MALLEABILE

by Peppino Marabita

Malleabile show is a mix of physical theater and circus (eccentric juggling, clown, free balancing ladder) a succession of situations that arise, transform and give life to the scene. That's how a sweeper becomes a juggler, a crooked dancer can balance as the equilibrist: an alternation of virtuosity and failures, faced with poetic irony, always in continuous dialogue with the audience.

Malleable is a show that adapts to all situations, from the street art festival to the theater stage to the circus ring, accessible to all the inhabitants of the planet earth. And aliens...

An extravagant and engaging 30-minute flow led by an unusual sailor.

A non-sense show that must be watched, at least, once in a lifetime.
